Low power and ultra-bright - Although this unit only uses 30 watts of power its LEDs produce the equivalent to an older 70w halogen bulb. Directional flood light - Direct the light to where you need it with its adjustable mounting. PIR sensor - Detect movement in the night with the directional PIR sensor. Specifications; Colour: Grey

Solar flood lights are easy to install as they work on solar energy and are ideal for any outside areas including gardens, patios, drive ways, playing areas and garages to name a few. For solar lighting to work at its best, the solar panel must be placed in an area that the sun can reach without obstructions from buildings and any tall trees and fences.
