In the past I've written about solar panel clamping zones which determine where, on a solar panel's edge, you can place the clamps that attach the modules to their mounting rails. What I didn't do was go into just where

60cm photovoltaic panel

on a roof solar panels can and can't be installed. Depending on the roof mounting system used to attach the panels, there may be "exclusion ...

100 Watt solar panel is quite large - typically 80 by 60cm. On the other hand, compact, folding, solar chargers are ideal for people who need to move them around by hand or in their bag, but these models tend to be lower wattage and wouldn't be able to charge a car battery or something similar. ... For a good-sized solar panel, this product ...
