

Cheapest solar plus storage installation offer in Panama

Where can I buy solar panels?

Join us at Stand 105. Cesa is a company dedicated to the sale and service of the highest quality solar panels and related equipment. Regardless of your power supply needs, our knowledgeable professionals can provide you with the perfect solution. From complete systems to individual panels and from batteries to inverters, we've got you covered.

How much does a solar panel cost?

The panels cost \$345 each and the batteries are \$349 each. The 60 amps controller cost \$670, the INVERTER about \$400. Note: we did use other American made batteries that were cheaper - but eventually they all failed. Also, there are cheaper panels but the ones we buy have a 20 year guarantee.

Can I buy a fridge if I have a solar system?

Unless you have a large solar system you will not be able to have a decent sized fridge. A propane gas fridge is wonderful. A Canadian company called UNIQUE can be found on the web. They are more expensive but the one we have can switch from propane to electric. So when you do get city power, it's a doddle.

Fortunately, there are several financing options for adding storage to your solar panel system, plus tax credits, rebates, and other incentives to make the overall cost more affordable. [How Much Do Solar Batteries Cost?](#)
Solar batteries ...
