What is the EU solar manufacturing map?

The EU Solar Manufacturing map gives an overview of solar manufacturing companies active along the solar PV chain. On this map, you'll find manufacturers spanning from polysilicon to module as well as the aggregate production capacities for each segment.

What is a solar panel Directory?

A global solar panel directory with advanced filters that lets you review and compare panels. Pictures, datasheets, PDFs are shown.

What are the top 5 solar module producers in 2011?

The top five solar module producers in 2011 were: Suntech, First Solar, Yingli, Trina, and Canadian. The top five solar module companies possessed 51.3% market share of solar modules, according to PVinsights' market intelligence report. Top 10 solar cell producers

How do I find the right solar panels?

Solar installers, system integrators, and sellers can use our advanced technical filters to find the exact PV panels that match their needs. We have collated panel data from manufacturers from all around the world into a common template, allowing you to compare and review panels easily. Multi-busbar technology ensures better light trapping.

Is the solar PV market growing?

The solar PV market has been growing for the past few years. According to solar PV research company PVinsights, worldwide shipments of solar modules in 2011 was around 25 GW, and the shipment year-over-year growth was around 40%. The top five solar module producers in 2011 were: Suntech, First Solar, Yingli, Trina, and Canadian.

Where are the top ten polysilicon & solar module manufacturers?

According to EnergyTrend, the 2011 global top ten polysilicon, solar cell and solar module manufacturers by capacity were found in countries including People's Republic of China, United States, Taiwan, Germany, Japan, and Korea.
