

Does the photovoltaic panel contractor need to pay a deposit

Most solar panel installations throughout the U.S. are connected to the grid. With grid-tied systems, you can draw power from the power grid when your solar panel system isn't producing electricity. Additionally, you can supplement your energy needs with electricity from the grid when the sun is shining if you use more electricity than your solar panels produce.

If you want to accept the recommendation, you'll need to put down a \$150 deposit to cover the costs of a roof survey and then pay the cost of your solar panel system. If you're struggling to pick your installer, it's worth checking out our guide, "How to choose a solar panel installer" .

In many states and regions, solar panel installers need to have a specific license, akin to general contractors. The requirements for these licenses vary, but they typically involve a combination of experience, exams, and additional training.
