

# Domestic energy storage supplier quotation in Ireland 2025

How good is Ireland's energy storage strategy?

Smith pointed out that Ireland's energy storage strategy, published in 2024, was "quite positive." A lot of high-level plans and a technology agnostic outlook. "Unfortunately, we haven't seen a lot of progress on those actions which is a problem we are trying to address," said Smith.

Will DS3 tariffs affect energy storage in Ireland?

While the energy storage pipeline in Ireland remains strong, it is unlikely to see a similar growth in built capacities until a few years from now. The potential cut-backs in DS3 tariffs may also pose risk in the development of this market.

What is Ireland's Electricity storage policy framework?

The policy framework is a first of kind policy, which clarifies the key role of electricity storage in Ireland's transition to an electricity-led system, supporting Ireland's 2030 climate targets, it may be considered as a steppingstone on Ireland's path to net zero carbon emissions.

Which energy storage companies are working in Ireland?

Statkraft delivered the first energy storage project in Ireland with Fluence in 2020, at its Kilathmoy wind farm and the company has continued to have a strong presence in the Irish energy storage field since then. The company is also lining up another milestone project soon, with the country's first four-hour duration energy storage system.

How does Ireland's energy system affect the economy?

As it stands, Ireland's energy system remains exposed to geopolitical instability and fluctuations in the power market due to our import dependency for fossil fuels, which still accounts for over 80% of our energy consumption. As we saw during the energy crises, the effects on our economy, industry, and households can be severe.

Who owns ESB energy storage in Ireland?

A 75MW/150MWh BESS project in Poolbeg, in the Republic of Ireland's capital Dublin. It was inaugurated earlier this year and is owned by ESB Network's parent group ESB. Image: ESB. The energy storage market in Ireland continues to show strong growth potential.
