

Dong Chao talks about solar power generation scams

What is a solar energy scam?

The scams vary, but here's the gist: someone claiming to be with the government or your utility company promises big savings on your utility bills from solar energy or other home improvements designed to increase energy efficiency. If you agree to the scammer's offer, it could cost you tens of thousands of dollars.

Are free solar panels a scam?

Know that "free" or "no cost" solar panel offers are scams. The federal government does not install solar systems in homes for free. If you're considering whether solar energy is right for you, check out the Department of Energy's guide for homeowners and learn more. Or check out the Department of Treasury's guidance on clean energy.

How do you know if a solar system is a scam?

Ask for a list of satisfied customers and look at customer reviews online. Know that the government won't offer you free solar. The federal government does not install residential solar panels for free; if someone is claiming otherwise, it's probably a scam. If it seems too good to be true, it probably is.

Are door-to-door solar sales a scam?

Not all door-to-door solar sales are considered scams, but what they're pitching should be taken with a grain of salt. Going solar is expensive and shouldn't be an impulse decision, no matter how pushy the salesperson is. "Legitimate companies will answer your questions," McGovern said.

Are solar business leads a scam?

At best, this is someone generating leads to sell, not actual solar businesses. At worst, they're scammerstrying to steal your identity. If you spot a scam, tell the Federal Trade Commission at ReportFraud.ftc.gov.

What are energy scams?

Energy scams involve people pretending to be energy companies or regulators to get your money or personal information. These scammers may pretend to be your energy company, say they're from Ofgem or even from Energy Saving Trust to try and gain your trust.

Fewer solar energy representatives are listed. "Any reputable solar installer that I know of, if you ask them to first see the Illinois Power Agency's Consumer Protections Handbook or Guidelines, they can make that available," Allen said. "If they get a bad feeling that this doesn't sound quite right, they're probably right."
