The only difference was my belt went to the water pump I believe. There is no tensioner so you have to remove the 4 bolts holding the pulley that the belt runs on. This is on the top pump. Then you have to align the holes up when reinstalling blindly. I am glad I went ahead and replaced the belt, the old one was about done.

The original belt was Onan part number 0511-0219 which cross-referenced to a NAPA A29 industrial belt. Our current 2018 Entegra Cornerstone has an Onan 12.5K diesel generator, but that generator doesn't have enough hours on it to need a new belt just yet. You post references two belts - a water pump belt and a "drive" belt.

Turbocharger for Great Wall Fengjun 2.0T 4D20, Model 1118100XED14, Compatible with Engine Code 1118010-ED09 No reviews yet Chongqing Qingdong Electromechanical Equipment Co., ...

Does anyone know were I can find a new generator belt for my KLC?.. If anyone has the spec"s that would be helpful. Thanks. 1950 18" Riviera Hull# R-18-256 "Rumble B" Top. Townsendgrove Posts: 10 Joined: Tue Jan 24, 2006 5:31 pm. Generator Belt. Post by Townsendgrove » Mon Feb 25, 2008 12:34 am

(quoted from post at 20:59:08 09/20/21) I have an 8N 6V. The generator is mounted with a bolt through two brackets on the generator. No matter how I tighten things, over time the generator moves making the fan belt a bit loose.

Artwork is now available on brand new generator/fan belts that very closely replicated the original markings on belts as originally supplied on PORSCHE cars. All artwork is carefully hand applied, one at a time. We have original appearance belts for all Porsche 356 models from Pre-A through 356-C, excluding Carrera. Early 911 belts have also ...

Have been trying for some time to replace the generator belt on my Farmall M. (It's getting pretty ragged.) To do so requires first slackening the water pump belt for which I could find no adjustment. However, thanks to information from this forum, I located the set screw and locknut securing the adjustable water pump pulley to the shaft along ...

TF Family (4th Generation) Members Profile TF, or TF Family 4th Generation, is a group of trainees under TF (Times Fengjun) Entertainment. They are based in Chongqing, Chengdu, and Beijing, China, and currently have 17 members.

The belt is a four ridge design and from what I could see, it was never put on right in the first place. Both pulleys have grooves where the belt ridges ride and one groove on each pulley was rusted while the others were nice and shiny. There was also evidence of the belt rubbing up against the bottom engine/generator case.
