

Government procurement price of residential solar battery in Ghana

How much is the government investing in solar panels in Ghana?

The Ghanaian government, through Volta River Authority (VRA), has so far invested in a solar plant with 2.5 megawatts of power. Additionally, the government has committed GHC200,000.00 for a rooftop solar panel project, aiming to install panels on 200,000 homes.

Is it worth installing solar power in Ghana?

Ghana has an average effective sunshine of 5.5 hours daily. As a considerable investment, it's worth evaluating a solar power system for your home before having it installed. Doing your research and seeking professional advice can help you to make an informed decision. Here are a couple of other things to consider before making the change:
