Solar generators are available as both portable generators and backup home generators. Most solar generators are portable, lightweight, and have a built-in handle. The best portable solar generators are used to provide power for construction sites, campers, events, or other settings where access to electricity is limited.

The Goal Zero Yeti 1500X solar generator is our top pick because it features a massive battery capacity, a large power output, a ton of ports to connect all your devices, and a sturdy, reliable build in a portable format.. All that means that you'll spend less time charging it and more time using it. With its versatility, it'll be useful in any situation you need it for.

For solar charging, you need a special solar adapter cable that some manufacturers include in the solar generator kit. An average solar charging time is around 5 hours, but large generators like the Renogy Lycan 5000 and the Bluetti EP500 have a dual-charging mode which lets you charge from the grid and solar at the same time.

The Jackery Solar Generator 3000 Pro or Jackery Solar Generator 2000 Plus are considered to be the best solar generator for home backup that can charge most household or outdoor appliances. However, if you're looking for an ideal power solution for camping or vanlife, you can go ahead with our portable Jackery Solar Generator 300 Plus or Jackery Solar Generator ...

See It Why it made the cut: This Jackery solar generator delivers the best blend of capacity, input/output capability, portability, and durability. Specs. Storage capacity: 2,160Wh Input capacity ...

I recently picked up the Anker SOLIX C800 Portable Power Station to use as a backup power source for camping trips and occasional home power outages. It's a well-designed, powerful unit that offers plenty of versatility for a variety of situations. The SOLIX C800 packs 768Wh of battery capacity and delivers 1200W of rated power, which is more than enough for ...

Example: Running a Space Heater with the EcoFlow DELTA Pro. On average, space heaters use 1500W of AC power. You will need a solar generator with a high enough AC output capacity. In this case, you'd need a powerful solar generator like the EcoFlow DELTA Pro, which has a 3600Wh AC output capacity. Divide 3600Wh by 1500W, and you get 2.4 hours, ...
