

How about Skyline Solar Power

What is Skyline Solar?

Skyline Solar is a Full Service Residential provider that exists to empower people toward sustainable independence by creating a choice for customers to own their power instead of renting it from the utility. We hold all the local licensing required to perform our installations.

How does Skyline Solar function?

Skyline Solar functions by educating consumers on the tax incentives that come with investing in solar power. There is a federal solar tax credit, also known as the Investment Tax Credit or ITC, which allows homeowners to deduct 26 percent of the cost of installing a solar system from their federal taxes.

Why should you choose Skyline Solar?

When it comes to solar, it pays to get it right first time. That's why thousands of Sydney-siders choose Skyline Solar. For 12 years, we've saved our customers \$1.7 million in electricity bills and remained Western Sydney's most trusted solar power company, offering custom installations and high-quality panels, components and batteries.

Who is Skyline energy?

Skyline Energy is a clean energy asset acquisition, management, and innovation firm. Servicing Skyline Clean Energy Fund (SCEF), a privately owned and managed portfolio of clean energy assets, Skyline Energy purchases, manages, monitors, and optimizes all assets within SCEF, in order to surface exceptional value for SCEF's investors.

Should I use Skyline Solar?

You might want to consider avoiding Skyline Solar. This Company has been reported to be deceptive and lacking in integrity, timeliness, and proper communication. Skyline's sales team and engineering staff have been criticized for over selling the system and under delivering on their promises.
