How does a utility meter connect to a solar panel?

There is an ALTERNATIVE UTILITY CONNECTION called a "Supply or Line Side" connection. This connection is made BEFORE the main breaker. A junction box is added between the utility meter and the main service panel. Then the wires from the utility meter, the main breaker panel, and the PV solar are connected in the junction box.

How do you connect a solar inverter to a utility meter?

A junction box is added between the utility meter and the main service panel. Then the wires from the utility meter, the main breaker panel, and the PV solar are connected in the junction box. An adequately sized PV service disconnect box must be used prior to making the connection between the junction box and the solar inverter.

How do I connect a power meter?

1. Verify that power is OFF before making connections.
2. Insert a grounding cable through the appropriate conduit and the knockout that was opened and connect it from Pin 10 of the 10-pin terminal block to the grounding terminal (bus-bar) at the bottom of the meter enclosure.
- 3.

How do I connect multiple energy meters in one system?

Multiple Energy Meters in one system To connect multiple Energy Meters, wire each meter to a separate RS485 to USB interface, which are then each plugged into a separate USB socket on the GX device. Connecting multiple meters to the same RS485 to USB interface cable is not possible.

How do I set up the energy meter?

Right-click or press the spacebar to get to the Energy Meter overview with all relevant data on energy consumption and its generation in all phases. At the bottom of the menu, the role of the Energy Meter can be set via the Setup menu. The data used for communication can be read out via the Device menu.

How do I mount a meter?

Mount the meter either directly on a flat surface, or on a DIN rail using the DIN-rail clips supplied with the meter.

1. Carefully remove the terminal blocks on both sides of the meter.
2. Use the two mounting holes on both sides of the meter to mark the hole positions.
