

Individual solar power generation scam

Are solar panels a scam?

That is, of course, also a scam. To protect yourself from clean energy scams: Know that "free" or "no cost" solar panel offers are scams. The federal government does not install solar systems in homes for free. If you're considering whether solar energy is right for you, check out the Department of Energy's guide for homeowners and learn more.

Are 'free solar panel health checks' a scam?

We're regularly contacted by customers, who have received an unsolicited call or letter from another company, offering them a 'free solar panel health check' or warning about their solar PV system being at risk of failing. This is a common scam.

What are energy scams?

Energy scams involve people pretending to be energy companies or regulators to get your money or personal information. These scammers may pretend to be your energy company, say they're from Ofgem or even from Energy Saving Trust to try and gain your trust.

Is my solar panel installer going out of business?

If you're not sure whether your solar panel installer has gone out of business, and a cold caller is insisting they are taking over, don't take their word for it. In this instance, it turned out to be a scam. Instead, check your original installer's website and try the contact details you were given when your panels were installed.

How do I avoid solar panel scams?

Knowing about solar scams and what to look out for can help you protect your assets and prevent you from becoming victimized. To avoid solar panel scams, we strongly recommend doing your own research and verifying that your solar company is legitimate before signing any contracts. Take time to make the right decision: Never rush into a contract.

Are solar business leads a scam?

At best, this is someone generating leads to sell, not actual solar businesses. At worst, they're scammer trying to steal your identity. If you spot a scam, tell the Federal Trade Commission at ReportFraud.ftc.gov.

While reputable companies can help you save money with clean or solar energy improvements, scammers offer more than they can deliver. The scams vary, but here's the gist: someone claiming to be with the government or your utility ...

This is a review of the company rather than the product, you'll see why as you read. My mother bought a 4 Patriots "Solar Generator" because a friend has one. It's a battery and inverter in a case with a 100watt solar panel. It was sold as having a second free 100W solar panel included. The...

Individual solar power generation scam
