

What technologies are developing in the east of the Netherlands?

Focus on three key technologies that are already developing strongly in the east of the Netherlands: electrical energy engineering, electrochemical energy storage and sustainable drive systems. Smart energy Hub: Smart decentralised energy system that produces, stores and uses sustainable energy locally.

Is there a roadmap for energy storage in the Netherlands?

In the Netherlands, there has also historically not been a roadmap or detailed industrial strategy with supportive legislation, policy, taxation reliefs, or investment incentives for the energy storage market.

What is a EUR300m project financing package?

The EUR300m project financing package, which attracted strong interest, has been arranged as a "club deal" with a group of 8 European lenders. The Leopard project is ideally located in Delfzijl, Groningen, close to one of the main offshore wind farm production hubs in the Netherlands.

Is energy storage a key component of the future energy infrastructure?

This diverse group of stakeholders underscores the growing support for energy storage as a critical component of the future energy infrastructure. Mufasa stands out as the largest utility-scale battery storage project in the Netherlands to be fully financed with over EUR 350 million in non-recourse project financing.

What are the laws & regulations on energy storage in the Netherlands?

No specific laws & regulations: In the Netherlands, energy storage is not described in Dutch laws and regulations as a specific item. Standard requirements: It has to meet standard requirements for production and consumption and some specific technologies that are part of the energy storage system must comply with standardisation.

What will be the biggest Bess project in the Netherlands?

The project will, the developer stated, "rely solely on revenues from the various Dutch power markets and the skills and expertise of the project's leadership team." Lion, part of Dutch renewables investor Return since 2023, also said the project would be the largest BESS in the Netherlands completely funded by non-recourse finance.
