

Jack Ma invests in solar power generation project

Who is Jack Ma?

Jack Ma is an unlikely corporate tech titan. He struggled in school, especially at maths, and lacked the connections or elite education that many assumed were essential for a successful business leader. But Jack is a gifted communicator.

Who is Jack Ma, the cofounder of Alibaba?

Jack Ma, the cofounder of Alibaba, was once the invincible poster boy of Chinese tech. Known for being outspoken and flamboyant, the tech entrepreneur was everywhere, appearing in the media and at conferences as well as headlining company events. He was savvy and outgoing-- remember that time he danced to Michael Jackson in front of thousands of people?

Is Alibaba's Jack Ma still lying low?

Three years after Jack Ma, Alibaba's cofounder, criticized Chinese regulators, he is still lying low. His words angered Beijing and precipitated a crackdown on his business empire. Ma has since been busy studying high-tech agriculture and morphing into the next phase of his life.

Why did Jack Ma become an English teacher?

In fact, Jack Ma's becoming an English teacher was an extraordinary accomplishment, and just one of the first of many unlikely shows of amazing ambition and drive and focus that brought him to where he is today. It only happened because as a child he was already seeing a future far beyond anyone around him and doing all it took to get there.
