

Longi's new anti-dust photovoltaic panels

What types of solar panels does Longi offer?

LONGi has two main series of solar panels: Hi-MO 4, and Hi-MO 5, which have a variety of different options to suit residential, commercial and utility-scale projects. The Hi-MO 4 series uses gallium-doped silicon cells which improves the solar panels resistance to LID.

What services does Longi offer?

LONGi offers professional consulting services, professional knowledge of PV power plant and charging station solutions, and full life cycle O&M capabilities. Hi-MO X6 Guardian series (anti-dust design) patented frame and advanced sealing techniques ensure durability and load capacity.

Why should you choose Longi?

Increased power generation, reducing cleaning frequency and costs. Patented frame structure and gluing technique, stable and reliable. LONGi offers professional consulting services, professional knowledge of PV power plant and charging station solutions, and full life cycle O&M capabilities.

On October 8th, LONGi announced the release of the LONGi Distributed Hi-MO X6 high-efficiency anti-dust solar panel, which is the world's first anti-dust PV product. Zhong Baoshen, chairman ...

The Hi-MO X6 Max Guardian Anti-Dust is suited for the residential, as well as the industrial market (C& I) and features an anti-dust short end frame design that addresses the persistent problem of dirt accumulation on solar panels. It is designed to allow dust to naturally slide off the module under the influence of gravity and rainfall. 120 ...

LONGi Solar Australia has launched its latest innovation at the 2024 edition of the country's Smart Energy Council conference and expo in Sydney. The highly anticipated Hi-MO X6 "Guardian ...

All praise to LONGi's industry transforming move of adopting Back Contact Technology in its product range, LONGi's newly developed anti-dust panels represent a ...

LONGi, a leading solar technology company, today launched its new module innovation "Guardian Anti-Dust" as part of the Hi-MO X6 Max back contact series at Intersolar 2024. The Guardian Anti-Dust is suited for the ...

Longi solar Hi-MOX6 Explorer anti-dust solar panel 575w 580w 585w 590w 600w 605W 610W 615W 620W solar panels, You can get more details about Longi solar Hi-MOX6 Explorer anti-dust solar panel 575w 580w 585w 590w 600w 605W 610W 615W 620W solar panels from mobile site on Alibaba ... NEW Longi solar Hi-MO X6 double glass Anti humidity & heat PV ...

Longi's new anti-dust photovoltaic panels

Home / Equipo / Panel Solar Longi 585W HI-MO X6-Max Anti-Polvo Panel Solar Longi 585W HI-MO X6-Max Anti-Polvo ... Hi_MO_X6_LR_5_72_HTH_565_585_M_Anti_dust. Disponibilidad: 265 in stock. Panel Solar Longi 585W HI-MO X6-Max Anti-Polvo quantity. Add to cart. SKU: LONGI585 Categories: Equipo, Longi, Ofertas, Panel Solar Tags: Equipo Solar, Panel Solar.

LONGi, a leading solar technology company, today launched its new module innovation "Guardian Anti-Dust" as part of the Hi-MO X6 Max back contact series at Intersolar ...

LONGi new generation HPBC cell technology opens a new chapter in the mass production of high-efficiency cells and continues to lead the reform of the industry. The efficiency of LONGi HPBC cells exceeds 25.5%. The efficiency of HPBC+ cells exceeds 25.8%. ... Unique high-efficiency HPBC cell structure sets new standard for PV technology. High ...

Longi Anti-Dust PV Module Hi-Mo X6 Solar Panel 580W 585W 590W Frameless, Find Details and Price about Solar Panels Longi Solar Panel from Longi Anti-Dust PV Module Hi-Mo X6 Solar Panel 580W 585W 590W Frameless - Nanjing Moge New Energy Co., Ltd. ... Nanjing Moge New Energy Co., Ltd. Jiangsu, China Last Login Date: Sep 09, 2024. Business Type: ...

Sydney, Australia - March 6, 2024 - LONGi Solar Australia, a leading solar technology company, unveiled its latest innovation at the Smart Energy Council Conference and Expo 2024 in Sydney today. The highly anticipated Hi-MO X6 ...

Anti-Dust design, preventing shadows from affecting module performance. Increased power generation, reducing cleaning frequency and costs. Patented frame structure and gluing technique, stable and reliable.

On October 8th, LONGi announced the release of the LONGi Distributed Hi-MO X6 high-efficiency anti-dust solar panel, which is the world's first anti-dust PV product. Zhong Baoshen, chairman of LONGi, said that the Hi-MO X6 anti-dust solar panel adopts the company's self-developed HPBC (Heterojunction with Passivated Back Contact) technology.

High efficiency: The panel boasts an impressive efficiency rating of 22.5%, allowing you to generate more power per square meter of solar panel installation. Reduced maintenance: The Anti-Dust design minimises dust buildup, potentially reducing the frequency of cleaning required for optimal performance. Enhanced durability: The Hi-MO X6 Guardian ...

Longi, the Chinese solar manufacturer that forefronts solar technology, recently unveiled the new "anti-dust" modules that are applicable for the commercial and industrial (C& I) market. The most expected Hi-MO X6 ...

Chinese solar manufacturer Longi has developed a new "anti-dust" module for the commercial

Longi's new anti-dust photovoltaic panels

and industrial (C& I) market in Australia. The frame sits flush against the glass on the short side ...

The key features of the Hi-MO X6 Guardian Anti-Dust module include a new frame design and assembly to reduce cleaning frequency, HPBC Back contact cells for outstanding efficiency (22.5%), straight-line cell ...

He said each photovoltaic breakthrough boosts power generation by at least 10 percent. His involvement in the "module anti-dust design" increased power generation by over two percent. GUO JINWEI Head of Product Solutions Dept. of China DBG LONGi "LONGi's new module technology uses BC batteries and an anti-dust accumulation design.

COP29 Insights: Decoding LONGi's Strategy for Facing Climate Change and Advancing Energy Equity "As advancements in photovoltaic technology continue and costs steadily decline, the solar industry is increasingly overcoming the challenges posed by the intermittency and discontinuity of solar power in certain regions.

Chinese solar manufacturer Longi has developed a new "anti-dust" module for the commercial and industrial (C& I) market in Australia. The frame sits flush against the glass on the short side, allowing water to wash off. ... Please inform about dust free solar panel please contact me about solar. 00919895043203. Reply. Luqman says: March 15 ...

More importantly, the innovative frame design allows the solar panel to effectively utilize rainwater to wash away dust, solving the long-existing problem of dust accumulation in the distributed PV market. Comparative data shows that solar panels with anti-dust features can achieve a power generation gain of 2.04%, with a maximum gain of up to 6%.

Chinese solar manufacturer Longi has launched a new "anti-dust" module. The feature rests on its design where the frame sits flush with the glass on the short side, allowing water to wash off unimpeded. ... One of the "Ultra Black" panel's features is that it is fingerprint proof, making it easier for installers to handle without ...

LONGi Solar Technology Co., Ltd. Solar Panel Series Hi-MO X6 Max Guardian LR7-54HTHF 455~475M Anti-Dust. Detailed profile including pictures, certification details and manufacturer PDF ... LONGi's Full-Black Solar Panels Bring New ...

Hi-MO X6 Max Guardian Anti-Dust Engineered with LONGi's back contact HPBC and TaiRay Inside technology, these panels feature a unique anti-dust short-end frame design to address the problem of dirt accumulation on solar panels. ...

The company's focus on tackling correct and challenging endeavors, such as the establishment of the first lighthouse factory for green manufacturing in the photovoltaic industry, underscores its commitment to generating substantial value for customers and society alike. The photovoltaic industry is evolving into a new form of productivity, with priorities ...
