

Office building energy storage tender price in Brazil 2025

Will Brazil hold a large-scale energy storage auction in 2025?

The Brazilian authorities say they plan to hold a large-scale energy storage auction in 2025, potentially creating a market for large-scale storage facilities in the country. From pv magazine Brazil

Will changes to Brazil's first capacity reserve auction undermine Bess?

Changes to Brazil's first capacity reserve auction of 2025 could undermine the expansion of the procurement regime to include battery energy storage systems (BESS) in the second exercise of the year, according to Markus Vlasits, chairman of Brazil's energy storage trade body.

Why is Brazil launching a battery auction in 2025?

Regarding the launch of the BESS auction in 2025, the Brazilian minister, Alexandre Silveira de Oliveira, said: "The purpose of the battery auction is to boost battery technology in Brazil and try to bring Huawei and other large battery producers, mainly from China and other countries, to be able to bring technology to Brazil."

Is there a Bess project in Brazil?

Image: A BESS project in Brazil from ISA CTEEP. The Brazilian Minister of Energy and Mining has unveiled an auction for battery energy storage projects to be held in 2025.

Could a Bess auction boost renewables in Brazil?

The launch of a dedicated BESS auction in Brazil could help boost the growth of the technology in the country and further enhance the use of renewables such as solar PV and wind.

Why does Brazil need to double its power capacity by 2031?

Silveira added that Brazil's energy demand is rising due to climate effects, indicating the need to double the country's thermal power capacity by 2031. He also requested a contingency plan to maintain system stability during the summer months
