How do I choose a solar panel repair company?

Ideally, you'll choose a solar panel repair company that can help to service and repair your solar panel system for many years to come. Help get that selection right first time by checking out online reviews from previous customers. For such an important investment in your home, this simple action will provide the reassurance you need.

What is solar panel maintenance & repair?

Solar panel maintenance and repair are crucial aspects of ensuring the longevity, efficiency, and cost-effectiveness of your solar panel system. At Skylar Solar, we take pride in offering professional services, tailored to home and business owners, to keep your solar panels functioning optimally and maintaining peak performance.

Can you repair a solar panel yourself?

It's not recommended for most homeowners to repair solar panels themselves, as they can be delicate and potentially dangerous if mishandled. It's best to hire a professional solar panel technician. Are solar panel repairs covered by warranties?

How much does it cost to repair a solar panel?

Many solar panels will have a warranty attached, so if something goes wrong, they can be repaired for little to no cost. Any solar panels installed by us are backed by warranties of up to 30 years, so should something go wrong, the cost of a repair will be fully covered.

Does Sunstore offer a localized solar panel service?

We offer a localized Solar panel service to any existing solar panels systems whether it was installed by Sunstore originally or even another installer. Some of the reasons why you may need a service visit used to almost 20% or lower if other energy steps are taken to increase efficiency.

Do I need a scaffold for my solar PV system?

Most solar PV systems are on the roof, meaning that a scaffold is usually required for remedial work. Due to the cost of having these faults repaired many customers choose to upgrade their panels with SolarEdge power optimisers at the same time.
