Solar panel kits with confidence included: These solar panels kits have been designed by us, evolving over the last 10 years to deliver optimum performance. Our in-house technical team fit these daily. This means our systems are comprehensively designed and our technical support is readily available by phone or email.

Off-Grid Inverters For Solar Power. To run 240V AC mains appliances and accessories off-grid from a 12V or 24V battery (in a solar power system) you'll need one of these inverters. It's best to use a pure sine wave inverter if you are working with high power systems or sensitive equipment such as computers.

Need help deciding how much solar power you'll need to meet your energy needs? Use the Renogy solar calculator to determine your needs. Renogy has pure sine wave inverters ranging in size from 700 to 3000 watts. ...
