

# Residential ESS tender price in Saudi Arabia 2030

How much is Saudi Arabia's energy storage system project worth?

The engineering, procurement and construction (EPC) contracts for the three energy storage system projects recently awarded in Saudi Arabia are estimated to be worth over \$800m.

How does demand affect the Saudi construction market?

This Construction Cost Note explores the current trends within the Saudi construction market, focusing on the impact of demand on current industry capacity. A potential supply gap is analyzed, which is not only challenging effective project delivery, but together with opportunity and risk pricing has led to a sharp increase in tender prices.

What is the projected growth rate of Saudi Arabia's construction market?

Projections: The construction market is expected to grow at a compound annual growth rate (CAGR) of 5.37%, reaching \$91.36 billion by 2029. Saudi Arabia's construction sector continues to exhibit stability in the face of global supply chain disruptions.

Can Saudi Arabia reach a 50% goal with a Bess procurement programme?

SPPC said on Monday that the newly launched BESS procurement programme will enable Saudi Arabia to reach that 50% goal, with the current tender representing the first tranche of solicitations. The locations for the four BESS facilities, dubbed independent storage projects (ISPs) by SPPC, have been decided.

Why are financing costs rising in Saudi Arabia?

Financing costs are rising. Despite relatively contained inflation, the Saudi Central Bank raised interest rates several times over the past year. Interest rate decisions mirror the US Federal Reserve policies, due to the currency peg with the US Dollar.

Is residential property in Saudi Arabia an attractive investment? Full analysis of Saudi Arabia's property market. Best areas? Most demand? Highest rental yields?

Adjustments in market capacity necessary to deliver projects will take time, so that tender price escalation is expected to remain notably higher than input cost inflation over the next two years.
