Product Description. The most efficient flat plate collector in the world. Sunrain manufactures large-size collector with a standard size of 15m<sup>2</sup>. A special design of the absorber and the attractive performance date mark these collectors ideal for large solar thermal systems working at higher temperature.

pre-installation Considerations. Before installation, please note: 1. Check the density, hardness and strength of roof structure to ensure safety of solar water heater. 2. The maximum snow load is: 1.2 times the weight of tank. 3. Maximal wind resistance for the frame is 1000Pa, according to ENV1993-1-1. Solar System Location

Types of Solar Racking Systems. The diversity in solar racking systems reflects the wide array of needs and challenges presented by different installation sites and goals. Here's a deeper look into some of the most common types: Fixed Tilt Solar Racks: Static structures holding panels at a set angle, determined by site latitude.

Solar racking is a very important part when it comes to the installation of ground-mounted, roof-mounted, or tracking racking systems. These structures are generally made of aluminum and stay hidden from the top. However, they are placed to mount solar panels to various surfaces, which ensures optimal orientation and stability.

Universal Compatibility: The Aire's Racking System is designed to be compatible with a wide range of solar panels and roof types, ensuring versatility in different installation scenarios. Adjustable Components : Adjustable mounting brackets and rails allow for fine-tuning during installation, accommodating various roof pitches and orientations.

The installation selection of photovoltaic ground brackets is mainly based on factors such as the fixing method of the bracket, terrain requirements, material selection, and the weather resistance, strength, and stiffness of the bracket. First, there are many fixing methods, such as pile foundation method (direct burial method), concrete block weight method, pre-embedded method, ground ...
