What is a solar inverter?

As stated earlier, a solar inverter consists of a number of solar panels, electrical cable, batteries and the inverter compartment. The panels are often overlaid on the roof of the house for easy access to sun rays.

Is Zambia's electricity problem worsening over time?

In fact, many believe the situation has worsened over time. Presently, the average Zambian home does not get more than six hours of electricity from the DISCOs on a daily basis. It is this appalling situation that has led many Zambians to seek alternatives to what is supplied by the national grid.
