Technical Support To ensure the best support for our customers, SOFAR has set up local teams which stand ready to provide expert assistance with your PV system installation - from planning support with professional tools, such as PVsyst and PVsol, to giving advice on component selection for specific project requirements, SOFAR has got you covered. [...]

Enhanced solar technology and auto-recharging batteries mean that your solar water features for gardens operate for up to five hours in complete darkness, ideal for entertaining and outdoor dining. The solar panels soak up the sunlight during the day, storing it safely in a contained battery pack, providing a consistent water supply without wearing down.

Our Solar Support Systems are designed for customers requiring to install photovoltaic and solar thermal panels on their buildings. We can provide recommended ballast weights and fixings ...

Now, Solar is introducing the next generation of this innovative technology. Advances in combustor liner, fuel injector, and bleed shield design, along with primary zone temperature control are some of the advancements allowing Solar to offer a robust 9ppm NOx, 15ppm CO, and 15 ppm UHC emissions warranty for natural gas fuel.

Shop Swimline 21-ft Solar Pool Cover Reel in the Pool Cover Reels department at Lowe's . Create a stress-free easy-maintenance system for covering your above-ground pool with the Swimline HydroTools Above Ground Pool Solar Blanket Reels System with

Installing a pond liner is a critical step in creating a long-lasting garden pond. Whether housing koi, goldfish, or even the occasional frog, the liner serves as the foundation that retains water and protects the pond's ecosystem. Proper installation ensures that the pond will maintain its integrity against leaks and

Motorcycle riding, tent camping, mountain hiking, city walking - the Solar 2 accompanied us in a variety of conditions during our 30+ day trip around Norway. Today we know that the next motorcycle season will also be spent without traditional liners. The Solar 2 is a lighter alternative and is available in men's and women's cuts.

The great thing about solar is that you can always add more panels if you need to. If you're looking to save money on pool heating costs and find eco-friendly solutions for your home, then solar panels -- and other great solar products like solar ionizers, solar pool covers, and solar water heaters -- are definitely something to consider.

Are you looking for specific pipes and fittings for your solar thermal heating system? BES offers expert support, just call us on 08000 801090, and we will gladly help.

Looking at Fig. 9, it shows that freshwater yields of the solar still and irrespective of the liner material increased with liner thickness and peaked at 4 mm. Beyond 4 mm, i.e., at 5 mm and 6 mm thickness, the productivity of the still decreased which implied that further increase in thickness was not beneficial to the productivity of the solar still. This could be because for ...
