What is a Clearwater solar sink?

Clearwater: Clearwater Solar 1.5 Bowl Stainless Steel Sink. "This elegant sink range has been designed with smart understated features that ooze class. Sharp corners symmetrical draining flutes and robust engineering ensure enduring good looks. Manufacturers 20 year guarantee included"

Are sunsynk batteries good?

Some of the common praises are that they are easy to install, reliable, versatile, and have a good warranty. Overall, SunSynk batteries seem to be a good option for solar battery storage, especially if you have a SunSynk hybrid inverter or want to use a smart tariff like Octopus Agile.

How does a sunsynk inverter work?

During sunny days, it maximizes the use of solar energy, channeling excess power to charge the SunSynk batteries. On cloudy days or during peak energy demand, the inverter seamlessly switches to draw power from the batteries. This technology ensures a continuous and seamless energy supply.

Are sunsynk inverters sustainable?

This includes a 10-year performance warranty for added peace of mind. This makes them a sustainable and long-lasting investment. The SunSynk 3.6kW Hybrid Inverter, a powerful addition to their product lineup. This versatile inverter packs a punch, offering the performance you need for your residential or commercial energy needs.

Why should you choose a sunsynk hybrid inverter?

Complementing the SunSynk Hybrid Inverter are the exceptional SunSynk batteries. This ensures that no excess energy from your solar panels goes to waste. Therefore, you can store enough energy to power your home or business during cloudy days or peak energy demand. The battery stores surplus energy from your solar panels.

Why should you choose sunsynk Ecco hybrid inverters?

SunSynk's ECCO Hybrid Inverters allow you to use solar power in a very effective way. This can be from the grid, solar, or batteries. These inverters help you take full advantage of your renewable energy system. They are flexible and help you lessen your dependency on the grid, and this contributes to a more eco-friendly world.
