

The research firm recently published its latest Microgrid Deployment Tracker, the seventh edition of its microgrid database that is updated biannually and now covers six microgrid market segments and six principal geographies, dividing the previous Rest of World geographic segment into Latin America, the Middle East & Africa, and Antarctica ...

Sony's Computer Science Laboratories (CSL) is working with LF Energy on a cloud-based open source microgrid initiative to automate the peer-to-peer distribution of renewable energy. The Hyphae project aims to make ...

Here are the latest rumors on Sony FE 24-200mm f/2.8-4.5 G OSS & Sony FE 24-50mm f/2.8 G Lenses. Looking at the recent reports, the New Rumored Specs of Sony a7S IV ... Another Sony Firmware Update news on the stage. According to reports, Sony will release a new major firmware update for Sony a1 in December 2023.

Microgrid simulation can help ensure project success, but testing microgrid components can be problematic and time consuming. Now, a Maryland-based company says they have an app for that. Powersim says its new DSIM tool is the "killer app" for microgrid simulation, capable of speeds a multiple of previous tools and able to run on a laptop.

Hyphae is a new microgrid initiative from LF Energy and Sony Computer Science Laboratories aimed at automating peer-to-peer distribution of renewable. Aspencore Network News & Analysis News the global electronics community can trust. The trusted news source for power-conscious design engineers ... Hyphae is a new microgrid initiative from LF ...

Microgrid Industry News. State Policy Innovations Crucial to Adoption of Microgrid Technology. March 13, 2024 By Lili Francklyn. The trade industry group Think Microgrid has issued a new report ranking states for their support of microgrid technology. The group says that legacy state energy policies must be reformed in order for the microgrid ...

LF Energy and Sony Computer Science Laboratories (CSL) have announced Hyphae, a microgrid initiative to automate peer-to-peer distribution of renewable energy. The goal of Hyphae is to make microgrids more efficient ...

# Sony Microgrid Latest News

Anglo American, Sony, Rocket Lab: 3 Stocks in Focus. Anglo American (AAL.L) reaches an agreement with Peabody Energy (BTU) to sell its steel-making coal business in a deal valued up to \$3.1 billion.

New Sun Road begins with Stellar Microgrid OS(TM), a cloud-based SaaS offering, and Stellar Edge(TM) smart device controller. We harness robust IoT data acquisition, add reliable internet access and apply AI-driven insights to deliver remote control, notifications, and optimization across a microgrid portfolio.

The city of Fort Collins, Colorado has deployed a new microgrid on a community center. It will provide resilience in emergencies, aid in carbon reduction and provide grid services to the municipal utility. ...  
Subscribe to HOMER Microgrid News: Upcoming Events: Microgrid Knowledge Conference 2024. Baltimore, Maryland - April 22-24, 2024. 8th ...

New features in HOMER Grid release 1.9 -- the trusted software for designing grid-connected distributed generation projects -- make it easier than ever to critically evaluate the costs and performance of energy storage ...

An interoperable, cloud-native, configurable microgrid pathway could offer a new way to manage grid energy, contributing to energy conservation and environmental issues. ...

Latest news on Sony: PlayStation, gaming, electronics, entertainment, and technology updates. Coverage of PS5, new releases, Sony Pictures, and corporate developments from the Japanese giant. Sony Corporation, with annual revenues exceeding \$11.5 trillion (\$62 billion), stands as one of Japan's most influential global companies. As a leader ...

While specific brightness stats remain elusive, we expect to see performance in the 1500-2000 nits range, thanks to Sony's clever tweaks. The first of these includes a dedicated heat diffusion sheet, which acts as a heatsink to help absorb and move away generated heat -- the less heat present, the brighter things can be cranked up without worrying about any ...

Siemens and the New York startup LO3 Energy are collaborating in the field of innovative microgrids. The goal of the collaboration is to jointly-develop microgrids that enable local energy trading based on blockchain technology. Siemens is involving its next47 unit, which was established in October 2016 as part of an ecosystem for partnerships with startups to take ...

The overall design of the iconic DualShock has been tweaked and updated since its inception in the late '90s, but the DualSense feels like the beginning of something all new. While its attention-grabbing two-tone colour scheme matches the console it pairs with, initially the pad feels like little more than a slightly heftier DualShock 4.

Sony and LF Energy announced that Hyphae, a new microgrid initiative to automate the peer-to-peer

# Sony Microgrid Latest News

distribution of renewable energy, will work automatically with both ...

Sony Computer Science Laboratories has launched an open-source project intended to make microgrids more resilient using peer-to-peer power distribution. Called Hyphae, Sony CSL is running the initiative with LF Energy, an open-source organization hosted within The Linux Foundation.

Hyphae Energy Web Services, named after the long filamentous structures found in fungi that facilitate connection and growth, is an open source initiative to automate peer-to-peer distribution of renewable energy in a ...

Partnering with Sony CSL brings LF Energy closer to its goal of building the first interoperable AC- and DC-ready microgrid that is self-contained, operational off-grid and able to connect to an electrical distribution network ...

The Sony A7 IV is the best hybrid mirrorless camera you can buy right now. A truly modern all-rounder that largely justifies its price tag, it packs class-leading autofocus, impressive image ...

Latest News. All Corporate Digital Imaging Mobile Sound TV B2B. 19 November 2024. Sony Announces Second-Generation Flagship Alpha 1 II Full-Frame Camera ... Access news on high quality products from Sony and technology ...

Sony is making available its DC microgrid Autonomous Power Interchange System (APIS) software module freely available for use. The APIS is the power interchange ...

The Hyphae project aims to make microgrids more resilient by moving Sony CSL's existing DC grid software that was demonstrated last year to work with AC Grids. This will be combined with resilient, peer-to-peer microgrid energy trading so that even the most remote communities will be able to store and distribute energy autonomously without connecting to ...
