

# Successful bid price of standalone energy storage project in Germany 2025

When will the Stendal battery energy storage project be fully operational?

The 209 MWh Stendal battery energy storage project is expected to be fully operational by early 2026, one year before its seven-year tolling agreement comes into effect.

When will Germany's new capacity market mechanism start?

BMWK noted that this set of procurements comes ahead of the introduction of Germany's new capacity market mechanism, planned to start in 2028. The LDES tenders had originally been anticipated to be held late this year and in 2025, but it is understood the timeframe has moved back a year.

Does Nofar energy have financing for Stendal Bess project?

Israeli developer and independent power producer Nofar Energy has secured EUR 86.5 million (\$92.5 million) in project financing from NORD/LB for its 104.5 MW /209 MWh Stendal BESS project in Germany. The Stendal project is backed by a seven-year fixed-price flexibility purchase agreement (FPA).

DTE Energy has issued a Request for Proposal (RFP) for new standalone energy storage projects totaling approximately 450 MW. These projects will support DTE Electric's CleanVision Integrated Resource Plan and ...
