

Tier energy storage box sales information

What is Tier 1 energy storage?

From 1Q 2025, the criterion for an energy storage brand to be listed as tier 1 is that it must have supplied, or be firmly contracted to supply, products to six different eligible projects in the last two years. To be eligible, each project: must be larger than 10MW or 10MWh (whichever is higher).

What are the tiering criteria for energy storage?

From 1Q 2025, an energy storage brand to be listed as tier 1 must have supplied products to at least three different third-party buyers in the last two years. We may change these criteria further. In addition, the tiering team reserves the right to reject projects which are demonstration, not fully commercial.

What makes a Tier 1 battery manufacturer?

On the other hand, one of the characteristics of a tier 1 manufacturer is transparency and good data availability. Manufacturers can help us tier them accurately by sending us (at batterytier1@bloomberg.net) data on the projects they have provided systems for, and the financing used to support these projects.

What is bloombergnef tiering system?

BloombergNEF has developed a tiering system for stationary energy storage products. Based on deployment over the last two years, this system is designed to create a transparent differentiation between the hundreds of manufacturers on the market. This document explains the tiering criteria, as well as the methodology's limitations. 1.

How many energy storage projects are there?

The analysis is based on BNEF's Energy Storage Assets database, which included over 14,000 energy storage projects worldwide as of October 2024. In particular, BNEF counts the number of projects above 10 megawatt or 10 megawatt-hours to which a supplier has provided batteries and/or energy storage systems in the last two years.

Who are the top energy storage suppliers?

"While there are quite a few notable incumbent suppliers in the energy storage space (e.g., Fluence, Tesla, Wärtsilä; BYD, Samsung SDI, LG Energy Solution within others), we've seen a significant uptick of lesser-known suppliers, especially from China," Sekine said.

On 23 October 2024, Bloomberg New Energy Finance (BNEF), a globally renowned research institution for the new energy industry, released its "Q4 2024 Global Tier 1 Energy Storage List". PotisEdge has been named a "Tier 1" energy storage supplier for the second consecutive quarter.

BNEF's stringent criteria for Energy Storage Tier 1 recognition demand a brand to have supplied, or be firmly
