

# Wholesale industrial energy storage price list in Poland

How does a supplier buy electricity in Poland?

In a competitive market, suppliers buy electricity on the Polish Power Exchange (TGE) or via bilateral contracts and then sell it to consumers. For most customers, the energy price portion has traditionally been a fixed rate per kWh (often set in a supplier's tariff or contract).

Do energy suppliers in Poland have dynamic pricing contracts?

By law, all large energy suppliers in Poland must offer dynamic pricing contracts as of 2024. The major incumbent electricity suppliers - typically the retail arms of Poland's big energy groups - have introduced dynamic tariff products for both residential and business customers.

How much electricity does Poland import in 2024?

In 2024, Poland's net electricity imports were around 2-3 TWh (roughly 1-2% of demand) as domestic generation (166.99 TWh) was slightly below consumption (168.96 TWh). The country is interconnected with Germany, Sweden, Czechia, Slovakia, Lithuania and others, allowing cross-border trading on the European market.

Poland Energy Storage to be Installed in Homes En masse In Poland, the industrial and large-scale battery energy storage sector is only in its infancy. However, commercial backyard ...
